1			The holding is not under movement restriction for bovine tuberculosis (TB)*or The holding is under movement restriction for bovine tuberculosis (TB)* The cattle on the holding are not under movement restrictions for any other reason (excluding 6-day standstill). Withdrawal periods have been observed for all veterinary medicines and other treatments administered to the animals on this holding and previous holdings. To the best of my knowledge the animals are not showing signs of any disease or condition that may affect the safety of meat derived from them. No analysis of samples taken from animals on the holding or other samples have shown that the animals in this consignment may have been exposed to any disease or condition that may affect the safety of meat or to substances likely to result in residues in meat. If the animals do not fulfil all the above statements, tick this box to provide additional information overleaf <input type="checkbox"/>
